

## Appendix A TEAM OR INDIVIDUAL STUDENT - CLIENT FEEDBACK

Name of Client and organisation:

Bulletproof Networks Pty Ltd

Name of Student/s:

Daniel Wood, Tristan Kells, Junha Yu

Thank you for acting as client for this Research and Development Project. Now that the project is nearing completion we would like some feedback that will assist the team or students in their future development. It is important that we gain feedback about the aspects of the work that were done well and also suggestions for improvement. Please comment the team as a whole and where it is possible the individual students.

This feedback will be used by the assessors to complete a picture of the student's performance during the project, and by the students to reflect on their performance during the project and in assessing their future development needs.

Please email the completed feedback to the project supervisor.

### THE PROJECT

Could you please comment on the results of the project? To what extent did the student/s achieve the agreed outcomes?

- The students delivered more than what we were expecting from this project. They delivered on the agreed outcomes and more.

How well did they go about completing this work?

- The team were very professional and thorough with their approach to this project. They managed the project well, and showed improvements in the solution each time we met.

What suggestions do you have for improvement?

- None that I can think of.

How did the student/s contribute added value or provide professional expertise to your organisation?

- They worked with our team to come up with a simple solution to scheduling and time management. They understood our requirements, and prioritised and built functionality in a logical manner.

In what ways did the student/s show initiative in learning about the wider aspects of IT professional practice?

- The team sought to understand how we work as a cloud consulting company, and how the software they were developing would benefit us.

#### PEOPLE SKILLS

In what ways did the student/s adapt to the situation and develop and maintain professional working relationships appropriate to your organisation?

- We developed a very good relationship with the team, and enjoyed working with them on this project. They showed professionalism, expertise, confidence and strong abilities.

In what ways did the student resolve conflicts and manage and deliver to the sponsor's expectations?

- There were not any conflicts to speak of.
- The team managed our expectations, and delivered to our requirements.

#### OVERALL SKILLS

How did the students' skills and abilities develop during the project?

- As we moved through the project, it became clear that the team were becoming more proficient in software ~~at~~ development, as they were delivering functionality at a greater pace.
- Throughout the project they sought feedback, suggested improvements, and confirmed that they were meeting expectations.

What advice would you offer this team or each of these students for their professional development?

• You all have a talent for problem solving, developing software solutions, and engaging with customers. Have confidence in your abilities.

Signed:

Date: 30/10/2018.

Grant Sweeney - General Manager
