

SPRINT PLANNING 6

SPRINT 6

DATE: 13/08/2018

SPRINT GOALS (*What is the MVP once the backlog is completed?*)

- **By the end of Sprint 6**, the application will adapt to a mobile screen for an optimized viewing experience.
- **By the end of Sprint 6**, the application will provide a visual indicator showing which elements are intractable.
- **By the end of Sprint 6**, the user will be able to clear all allocations for a consultant row.
- **By the end of Sprint 6**, a working version of the application will be hosted on the AWS EC2 services for continued development and testing.
- **By the end of Sprint 6**, the user will be able to log into glance using a social account (Facebook, Google etc...)
- **By the end of Sprint 6**, users will be able to manage clients and consultants on a separate view/popup menu, removing some of the functionality from the main application
- **By the end of Sprint 6**, the application will support a colour blind friendly palette.

WORK ASSIGNMENT

- Dan
 - Look at how to make the application colour-blind friendly.
- Junha
 - Google/facebook login
- Tristan
 - Add a manage page with add/remove entity features.
 - Remove add/remove functionality from the weekly calendar.
