## Agenda Items

- Updated Kenneth on current application progress.
- Discussed using our project as the topic of a usability study for applied human and computer interaction. Agreed to pick another topic, as using our application might cause issues with markings if it was not made perfectly clear that the work was being submitted as part of another assignment.
- Discussed talking to members of the AUT staff to look at making the application commercial
- Agreed to have another mentor meeting on the 09/10 to look at project documentation and see where it could be improved and look at the best way to present it.
