SPRINT PLANNING

DATE: 18/09/2018

SPRINT GOALS (*What is the MVP once the backlog is completed?*)

- **By the end of Sprint 9,** a manager will be able to make allocations for the following week and navigate between this week and the next week.
- **By the end of sprint 9**, the month page will have updated UI representing the unique colours of client and providing more client information.
- **By the end of sprint 9,** unique messages will be displayed when things are not working as intended **(**Not default browser notifications**)**
- **By the end of sprint 9,** there will be an option to not stay logged into the website, for security purposes.
- **By the end of sprint 9,** the applications will have an option to make be colour blind friendly.
- **By the end of sprint 9,** making changes to the month calendar will be-be represented in the week calendars. An example, after a warning message is displayed, all of a consultant allocations to a specific client can be cleared for the week, from the month page.

WORK ASSIGNMENT

- Dan
  - Will choose colour blind colours and implement a button in the options to implement the colour pallete.

- Junha
  - Will work on implementing the option to stay logged in / opt to not stay signed in.

- Tristan
  - Will add the remove allocations from week view to month calendar
