SPRINT PLANNING

DATE: 09/04/2018

SPRINT GOALS (*What is the MVP once the backlog is completed?*)

- **By the end of sprint 2**, we will have a product backlog in the Jira platform.
- **By the end of sprint 2**, we will have a GitHub repository to work collaboratively on.
- **By the end of sprint 2,** we will have a working local web page.
- **By the end of sprint 2,** we will have implemented two tables (a client and consultant table) within this page.
- **By the end of sprint 2,** we have implemented a drop down functionality in the client field of the consultant table.
- **By the end of sprint 2,** we will investigate options to use a database to store information to be saved from the web page.
- **By the end of sprint 2,** we will investigate and look at the feasibility of using the bootstrap library to help make the app mobile friendly.
- **By the end of sprint 2**, all member will have contributed to the team GitHub.

WORK ASSIGNMENT

- Dan
  - Design the tables using CSS, HTML and the bootstrap library.
  - (User Story) As a user, I would like to be able to view a calendar detailing work being done by team members.
- Junha

- - (User Story)As a user, I would like to be able to edit consultant information.
- Tristan
  - (User Story) As a user, I would like to select clients from a drop-down table for the consultant calendar.
