SPRINT PLANNING

SPRINT 5

DATE: 16/07/2018

SPRINT GOALS (*What is the MVP once the backlog is completed?*)

- **By the end of Sprint 5,** the application will have a login page which requires accurate login credentials to navigate to the welcome page.
- **By the end of Sprint 5,** the application will have a welcome page that displays all the boards the user has access to.
- **By the end of Sprint 5**, the user will be able to create and view multiple different boards.
- **By the end of Sprint 5,** the application will recognise if it's being viewed on a mobile and accommodate the new screen size.
- **By the end of Sprint 5,** a user will be able to drag and drop to reposition client and consultants within their respective tables.
- **Minimum Viable Product of Sprint 5**, a locally hosted web application, with a login screen, a user-welcome screen and the ability to access multiple boards. If accessed on a mobile device the board will change to accommodate the diminished screen size. (Product includes features of previous MVPs).

WORK ASSIGNMENT

- Dan
  - Investigate and work on how to make the application work as a mobile experience.
- Junha
  - Drag and drop reordering functionality.

- Tristan
  - Add a login screen.
  - Multiple board access.
