R&D Project 2018 - Google Drive

drive.google.com

hey guys, made a google drive for team documents, and did a rough minutes for the meeting we had today. Feel free to make any changes you would like.

Dan

Cheers mate

Dan

We got Kenneth as our mentor pretty stoked he was good in p2

Tristan

Hey boys, should we flick Kenneth a email to tee up a meeting with him?

Dan

Yeah I was going to do that with ya tomorrow but if you wanted to do it tonight that would work

By you I mean we

Tristan

Might as well do it today. Talked to Dylan and his team was going in with Kenneth on Wednesday, so the sooner we organise something the better. I'm happy to quickly flick something off when I get home

Junha

Tristan

Hey boys, what time would suit you both for a team meeting with Kenneth? I'm free from 10 to 4 tomorrow. Before 12 or after 3 on Thursday and all day Friday.

Junha

Im free after 11 tomorrow, before 12 on Thursday, and before two on Friday

So do we meet today before the class?

Tristan

Um, i'm thinking probably not necessary until we get this meeting with our mentor out of the way
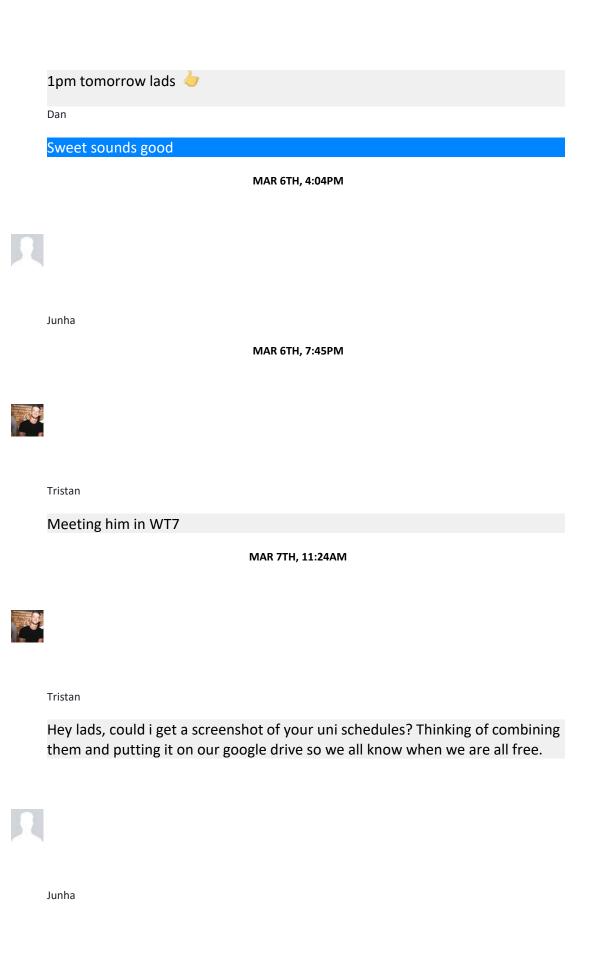

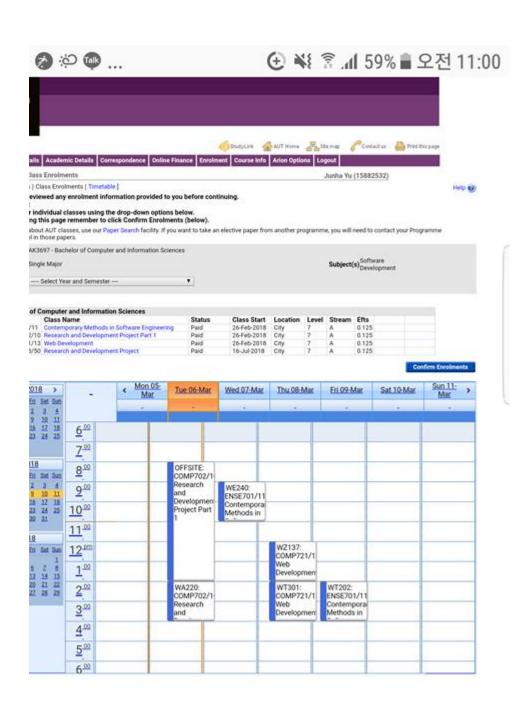

When you free dan?

Dan

Free from 12-2 tomorrow and before 12 Thursday

MAR 6TH, 2:12PM

Meeting him in WT7

MAR 7TH, 11:24AM

Tristan

Hey lads, could i get a screenshot of your uni schedules? Thinking of combining them and putting it on our google drive so we all know when we are all free.

That look about right boys?

After we have meeting with client, and find out how often they want to meet and when, reckon we should put aside some time to have a group work session / meeting in one of those free blocks.

Dan

Yeah that looks good mate

Agreed we can sort out a schedule once we figure out our clients expectations

Tristan

👍

Junha

No response from client yet?

Tristan

Nah man, not yet. I'll give email to Kenneth early Monday, see what the go is. Looking at the work for this proposal, we got a big chunk to do. That Trello I linked in chat has a board I setup with some of the key stuff need to do next week. You boys want to meet Monday or Tuesday morning to bang out a team charter and book a presentation time?

Junha

I think we should avoid tuesday for this time cuz the client might want to see us at offsite time

Tristan

Yeah, good thinking man. Can you do morning, anytime before 12?

Junha

I can

Dan

Ditto any time before 12 is good for me monday

MAR 11TH, 6:42PM

Tristan

Should we do 10am then?

MAR 11TH, 8:16PM

Junha

MAR 12TH, 9:17AM

Tristan

Can you do 10 dan?

And should we meet wt labs?

Tristan

Maybe wg instead, my card don't work for wt yet.

Junha

Tristan

Yeah if that all good. Don't have a laptop so need something to type on.

Tristan

All good bud, we have done a first pass of a project charter and emailed Kenneth. He got back to us and said he waiting on bulletproof so not too much to do. The team charter is on google drive.

Dan

Ok cool I'll check it out, are you still together? I'm almost there

Damn we really need to get this meeting with bulletproof out of the way

Junha

True, im heading home now

Tristan

Sure do bro, really holding this documentation up

Tristan

Hey boys, how you feel about skipping web dev class/lab? Thursday 22/03 the latest we can book this proposal presentation, but Kenneth can't do earlier than 11am.

Junha

I dont mind skipping web dev class on thursday

Tristan

Sweet, ill try to get this proposal time booked in.

Dan

Yeah no worries

MAR 13TH, 2:39PM

Dan

Are you guys at this lecture?

Junha

I am

Tristan

I am not 😕. Read the notes though. Still haven't heard from bulletproof, think we should start working through the proposal documentation anyway. Some of it we can do with just the information in the brief. I put all the section on a board in Trello, you guys wanna grab one each and start putting some documentation together?

Dan

Sounds good we can't wait forever

Tristan

Exactly

MAR 13TH, 8:18PM

Tristan

Anyone keen to meet up on Thursday and work on some documentation together?

Junha

Thu Mar 15 at 12 PM

The group will also be reminded 1 hour before.

This plan has been deleted

Junha started a plan.

Junha

Yeah im in. Waht time?

Tristan

I'm going to be in from 1 to 5-6, so whenever you free . I'm going start missing web dev stuff and do the work on my own time.

Tristan updated the plan to Thu Mar 15 at 1 PM.

Tristan responded Going.

MAR 14TH, 10:08AM

Dan

Reminder, 1 hour until 12 PM.

Tristan

MAR 15TH, 5:26PM

Tristan

Hey bro, just got email from kenneth, we have meeting with the client at 11 on tuesday now.

So instead of meeting on Monday , want to have a catch up wednesday at 12?

Junha

Great. Yes i can be there

MAR 16TH, 4:35PM

Tristan

Got an email from Kenneth confirming Tuesday. Said to meet him in the wt foyer at 10:45 for a taxi to Bulletproof.

Junha

MAR 19TH, 1:25PM

Dan

Did you get that email about extensions? We might be eligible if you want to give ourselves a little breathing room

Tristan

Not bad idea, could talk to Kenneth and see what he thinks on Tuesday. When we talked to him in the mentor meeting, seemed to think we couldn't do most of the proposal before having a meeting, so might be willing to give us a bit extra time.

Same time, no lecture this Tuesday means after client meeting have a chunk of time to work on this thing.

Dan

Yeah sounds good will ask him then

MAR 20TH, 9:43AM

Tristan

Just a reminder, meeting Kenneth at wt foyer at 10:45 👍

Dan

Leaving shortly bud

Tristan

Almost here?

Taxi cane not early

Dan

1 min away

Tristan

Tristan

Yeah, it was, me and junha just got there and said he called the taxi early and had to leave on the dot 😓

Dan

On my way in Uber now

Here

MAR 20TH, 12:46PM

Junha

Are you guys in the lab?

Tristan

MAR 20TH, 3:23PM

Dan

Mind letting me in bud

MAR 21ST, 12:13PM

Tristan

At wt level 5 now

Dan

Sweet on my way in

Dan

Getting my card updated be there in a few lads

Dan

Cheers for sending Kenneth our draft! Let us know what he says and if we can meet him potentially tomorrow or monday

Tristan

Hey boys, 3:30 pm next Thursday for proposal presentation.

Junha

Thats great

Dan

Oh sweet

MAR 23RD, 1:07PM

Tristan

I'm hearing this proposal presentation is rough. We should make sure we all have a well thought out reason why we chose our methodology and practices.

MAR 23RD, 2:24PM

Dan

Yeah let's go over it again and perfect it next week

Tristan

👍

MAR 26TH, 11:13AM

Tristan

Hey boys, go some feedback from Kenneth on the proposal. Want to meet Tuesday before or after the lecture to make some adjustments and get started on the presentation.

Tristan

MAY 31ST, 4:40PM

Junha

Are we ready for the presentation tomorrow?

Tristan

Not really haha, dan gonna do some slides tonight, then we need to collect evidence for all the work we have done. I was going to do that tommorrow morning, just have too many assignment I need to finish. Not much else we need though.

Junha

Haha yeah im still working on the web dev. assessment. Hope you do good work on the assignments and let me know if need anything

Tristan

Sweet, thank you junha. If you have other coding work, even practice stuff, maybe just bring it in tomorrow, all part of the evidence. And remember your work log.

Oh hell, nice.

Junha

No. The code i uploaded on the github last time was all of my coding work. Do i need to print the work log?

Tristan

All good. No don't think so, just keep your one in google drive up to date 👆

JUN 1ST, 11:26AM

Dan

How long does the presentation take anyone know?

Tristan

Not long man, think like 15 mins.

Dan

Sweet should give me an extra hour to finish my report hahaha

Tristan

Dylan said his was 30 mins actually.

But not to bad. Gonna have time for the slides, or want me to do something ?

JUN 1ST, 2:56PM

Junha

Can someone open the door for me?

JUL 16TH, 3:42PM

Tristan

Hey @Junha Yu, hows it going? Me and dan are gonna meet at the lab tomorrow to kickstart the project again and get something ready for a meeting with bulletproof next Tuesday. Can you make it in?

Junha

Sure what time? I have other meeting around after 2 though

I can adjust time if necessary

Tristan

Aiming for 10am, that suit ya?

Junha

Thats perfect.

Tristan

Sweet man

Tristan

Can you lads make 11 am Thursday for meeting with Kenneth?

Junha

I can

Tristan

Sweet, what about you dan?

Dan

Yup 👆

Tristan

Sweet, we booked in.

JUL 17TH, 9:45AM

Tristan

No worries mate.

Im about 10 minutes out, going to head to the PC labs on level 6 WZ

Tristan

 forgot my swipe card

Dan

Since I missed my 9.30 I had to wait until 10 and it does get in till 11 jeez these buses will take a lot of co-ordination haha

Miss being able to walk

Tristan

Do you have key card dan?

Dan

Yup will I need to have it updated first though?

Tristan

Nah, still works from last semester.

Dan

Oh cool well yeah I do I'll meet ya there

Dan

I'm about 5 mins away meet you outside?

Tristan

Outside where?

Dan

WZ

I'm in wg now headed over

Tristan

We in wz level 5

Dan

Oh sweet

Dan

https://www.youtube.com/watch?v=-KXo8sspCho

Tristan

Yeah that a good video, explains it well aye. Junha hashed what we have now, be worth adding the salt if it that easy

Dan

Where the fuck is WG125 lol

Tristan

Im still on the bus haha

Dan

Oh it's 126 mybad, see you soon bud!

Dan

We meeting in the same spot?

Level 7 WT?

Also do we have login details running?

Tristan

Yep

Kenneth is on WZ345A

Dan

Oh really damn I'm in WT

I'll be there soon

Dan

Where is 345? I'm on level 3

JUL 19TH, 6:11PM

Tristan

@Junha Yu finished the position drag and drop. I'll fiddle with the registration and leave the month view to you aye?

Find a perfect youtube tutorial, was like exactly what we needed.

Junha

Great. Yes ill do the month view. Would you share the youtube tutorial link? It will help mine

Tristan

https://www.youtube.com/watch?v=V1nYMDoSCXY

Junha

Thanks a lot

Tristan

there you go. Where I think we were going wrong, is the jquery ui has sortable, draggable and droppable as all separate things. I was looking at draggable, but instead what I needed was sortable. I think what you want is draggable/droppable since it is not a list/table.

Junha

I think you are right. Thanks

Tristan

No worries 👆

JUL 20TH, 5:28PM

Tristan

1pm Tuesday for meeting with bulletproof

JUL 20TH, 7:29PM

Dan

Sweeet, can you cc us into the bulletproof emails too? Cheers for organising bud 👌

I have an internship workshop at 12-1 but will leave early

Tristan

Yeah sure thing 👆

JUL 22ND, 1:31PM

Dan

Just pushed some changes be careful when merging 👆

JUL 24TH, 10:05AM

Junha

Updated monthly calendar

Dan

Sweet cheers I'll pull and have a look

I'm in WZ701 if anyone is in and wants to join

Junha

Use right click to manage allocation.

Dan

Did you push yet @Junha?

Oh I see it doesn't auto-populate

It's not quite working for me might be something on my end though

Tristan

I'm down the road, be back in wz shortly

Junha

I directly pushed files in the evening

To the master

Dan

When I right click it won't let me make a selection, shows the dropdown but nothing happens when I choose an item

Junha

Are you at wz Dan?

Ill check again when i go to wz

Dan

Don't worry it's working now, strange haha

Yes me and Tristan are at WZ

Dan

http://colorbrewer2.org/#type=sequential&scheme=GnBu&n=3

ColorBrewer: Color Advice for Maps

colorbrewer2.org

Has a colorblind option to choose a color pallete that is safe

Tristan

Oh damn, that handy. What you can find with a little google.

Dan

Haha yeah but it only gives you like 5 palettes, from what I have been reading it sounds like as long as the colors have enough contrast you should be ok. Like our current combo would probably fail miserably because blue and green are so similar

Tristan

Ohh lame, contrast good for overall distinction I guess though. Interesting design perspective to take into account, would never think about that, glad he gave us constructive feedback.

Dan

Yeah me too, can add it to my portfolio when I get around to creating it 😄

JUL 30TH, 10:09AM

Tristan

Hey team, what day you want to meet up this week? Have a sprint plan/review to do, and would be good idea see how much of Craig's work we can get through before next week. Tomorrow or Thursday both work for me.

Dan

Tuesday for me mate

Junha

Same. Lets do it on Tuesday

Dan

Hey I just realised I have a shoot on the Tuesday that we are meeting bulletproof, could we ask if it can be pushed back a little until maybe 2pm?

Dan

Or maybe ask if Monday works? What availability do we all have on Monday?

Dan

Eh yeah Monday would be my best shot they are asking if I can stay most of the day for the shoot. Want me to email Craig?

Tristan

Yeah man no worries, flick him an email and we can try meet another day.

Dan

What times are you guys free so I can offer some suggestions

Tristan

Just software engineering.

Otherwise free

Anytime before 12. I'm not overly attached to the lecture if we have to skip that one.

Dan

I'll suggest any time on Monday and maybe Wednesday 11-12?

Does that work for you junha?

Junha

Yes i have all time on monday

And wednesday

Dan

Cool, just sent the email asking

JUL 30TH, 12:32PM

Junha

Im trying to go to SE lecture for the first time today but where is this WH building?

Dan

It's the hospitality building

Where the piko cafe is

On level 4

Also Tristan the organising you are doing is called Refactoring, it's part of the agile quality assurance process so make sure you document it so we can show that refactoring was done mid-project

Junha

Nice thanks

Tristan

Easy A lads. Yeah, saving all my links I'm using to guide the reformat, and then git helpful in that regards as it tracks all the changes being made, lines removed/added.

Dan

Just read over the lecture notes for this semester and looks like we don't need to attend until week 11. All of the lectures are repeats of the first semester and the only relevant information that is just for us is week 11 onwards

Tristan

Oh really, that kinda of nice then, that class was a waste if time last semester as well tbh.

What time you boys gonna be around tomorrow?

Junha

Imma be there from 11

Dan

I'll be in around 10/11

Tristan

Oh sweet, was thinking around the same 👆

JUL 31ST, 1:05PM

Dan

10am Monday ok with you guys? For bulletproof

Btw I'm almost in, had a bit of a chaotic morning

Junha

Yes 10am monday works for us

Dan

Sweet

Cool just confirmed

AUG 5TH, 11:13PM

Junha

How was the weekend? I'm finishing up the tasks and i just downloaded the latest version from the Github and put it on the server and it seems it doesn't load any images. Do ya have any clue?

Junha

Nvm. It was a path issue

AUG 6TH, 10:02AM

ill set up a new one on the account Bulletproof gave us later today

Dan

Sounds good! Login not working for me must be a database thing

Junha

It uses a different db so u have to register new user. Doesnt that work?

or try with test@gmail.com and password test

Tristan

I managed to get. g nice working @Junha Yu. Slie note, do you have all the command or list of libraries, you need to get it working, so if we need to make another instance we could do it easier?

Dan

Got it working!

Tristan

Kenneth wants to meet up for a meeting this week, what days suits ya? I'm completely free thursday/friday. Give me some time and ill email Kenneth to book it.

Dan

Thursday at 10-12 works for me

Junha

thursday/friday sounds good to me. I set up this one with ubuntu server. Ill try the same thing on Linux again and let u know

Dan

Or after 2

Dan

AUG 8TH, 9:22PM

Junha

What is the meeting with Kenneth tomorrow?

Tristan

Hasn't emailed us back yet, so not sure yet. I might give him an email reminder now so he gets it in the morning.

Junha

We can still have a team meeting tomorrow thats whats meaningful. Ijust noticed that i cannot even add or do anything with ec2 service on the account given from bulletproof. So i would just use my account for now.

Tristan

Have you setup 2 factor authentication yet? Mentioned in the email that we can't provision resources till that setup. Otherwise meant need to give them a message.

But a team meeting sounds good anyway, do some group work maybe. Dan has a class in the morning, but think he free from 12 to 2.

Sorry he free from 10-12

So maybe 10?

Junha

Im gonna be in the lab from around 11. 10 if i wake up early

Tristan

Sweet man, have a sleep in haha, see you around 11 👆

Junha

Thank you for letting me know about the authentification setup. I have totally forgotten about it

Yeah see you tomorrow

AUG 8TH, 10:56PM

Dan

Yeah Kenneth said he can do one I'll just have to leave my lab early unless he can do another time, will see if he can do 1.30 or 2

AUG 9TH, 9:38AM

Tristan

Kenneth said he can do 1:30 for 20 mins. That all good for you dan?

AUG 9TH, 10:48AM

Dan

Yeah that works

Dan

Hey I'm just going to skip the lab, let Kenneth know I can do 1pm 👆

Dan

Do you want me to email him?

Tristan

Already did, the chain doesn't cc you guys if I don't explicitly say it every message for some reason.

Dan

Oh so are we meeting at one or 1.30? Lol

Tristan

One bro

Dan

Ok

Tristan

I think, he actually hasn't replied to that one, but should be we show up at one and it sounds like he free

Dan

Yeah all good

I'm walking to bus now will see ya there

Dan

I don't think I've pulled yet so we could show him the old one and explain how we are changing the select items

Since I didn't get a chance to tidy up the new one

Tristan

Good thinking man, i have an old version as well, so can show him what we showed the client and then show him some of the new stuff.

Dan

Sweet sounds good

It's WZ519 right?

Tristan

Level 3

Same as last time?

Dan

Just walking up to WZ now

look good bro

Dan

hang on

There we go

Idk why they are saving so weird

Tristan

I like the dots aye.

Just nice and simple

the bar on the left is quite nice though

mmmmm

Dan

Personally I like the bar the best, I think the dots are cool but make the overall view rather cluttered

But I guess we let them decide!

Junha

yes i like the bar the best

Tristan

I see what you saying about the busy

cause it the same size as the away icon.

yeah, lets back the bar

Dan

Oh and it didnt save my leave background, hang on

The leave box will have a gradient to make it easier to see

Tristan

Solid work Dan. Send to them tomorrow if you keen and we can get onto implementing as soon as we get a reply.

Dan

Sounds good!

Tristan

...after i finish this bloody software engineering 😞

Dan

Im at work all day, would you mind sending to them? I'll send another zip with the correct files, just open it first to double check they are all good

Tristan

Yeah no worries, can do

you should go to bed as well, don't you have to wake up at 5?

Dan

Colored Design Options.zip

Yes im literally lying in bed haha, paige is watching some cooking show so just working while she finishes it 😄

Tristan

That worked bro

Dan

Tristan

Haha sweet man, have a good night catch you later. Cheers for doing those prototypes.

AUG 27TH, 9:46AM

Tristan

Hey boys, we keen for meetup tomorrow? Gotta do a sprint planning/ review as well.

Junha

Cool

Dan

Yeah mate, I'm meeting with my design team at some point aswell will see what time they want to meet

Dan

I'll be in early going to the metal workshop to try and make the cup design and will be free after 👍

Tristan

Sweet as 👌

Tristan

Hell yeah, grabbed a meeting room with big monitor. I'll be here most the days, catch you guys when you free.

Dan

Sweet sounds good. Do you think you could do me a big favour tris? I'm headed back into town and I have to drop these metal rods off at school, then drop the car back in Kingsland then bus back in. Do you think you could grab the metal rods off me and hold onto them until I get back? Won't be long

Dan

Just worried about parking and where to store them while I'm gone

👍 1

Tristan

Yeah no worries at all man. Where are you now?

Dan

At home again I forgot to grab the cups I needed to build the prototype haha, should be in around 10.3

Tristan

Oh sweet as, let me know when you here and I'll come grab em off you.

Dan

Cheers mate

Dan

Oh never mind the mrs is gonna drop me off

Junha

Hostname/ip is endpoint

Put ec2 ip address for ssh host

And port 22

SEP 18TH, 9:20AM

Tristan

Hey boys, Kenneth cancelled our meeting today. However if you still both free earlier, would you be keen to meet up for a sprint planning session?

Dan

Yeah sounds good I can be around 12? Did Kenneth say why?

Tristan

12 sounds good. Nah didn't say, but said he free over the next couple days, so I'll email him once we all in and can agree on a time.

Dan

Ok cool

SEP 18TH, 12:16PM

Dan

Want a coffee? Just grabbing one

Junha

Sorry i just woke up so i would be late

Other way to expire a php session is to set a time out.

Tristan

I guess what we mean, is having a button on the log in the screen, that if you pressed, means you wouldn't stay logged in after closing the window.

The other thing that would be cool to work on might be the google login if that isn't a huge amount of work.

Junha

I think there is no way to capture an event in which a window is closed

Dan

This is what we mean @Junha

So only apply the stay signed in if it's checked 😊

Otherwise expire the session

SEP 27TH, 10:15PM

Junha

Allow me to clarify some things. The 'stay signed in' button we see in websites is for keeping logged in for weeks. The session normally expires either when user logs out or it is timeout. The default session timeout is 24mins. It is changeable.

So when user logs in on a public pc, he can click log out button to expire the session. If he didnt, the session will expire on a timeout

Dan

That's what we need 👍

Junha

So from the way i see, i feel we dont need that button for this purpose

Dan

I see what you're saying. Do you think we could use one just to satisfy the user requirements set by Bulletproof? Also it's pretty standard in most applications so would make ours look more professional and user friendly having it 😃

Junha

So by checking the 'stay signed in', user will be logged for a week. Is that what we are gonna do?

Tristan

That might be nice. I didn't know the stay signed in only lasted 24 mins for what we have now. So making it stay signed in for a week or something if they tick the box, or log out as soon as they close the browser if they didn't click the box might be cool.
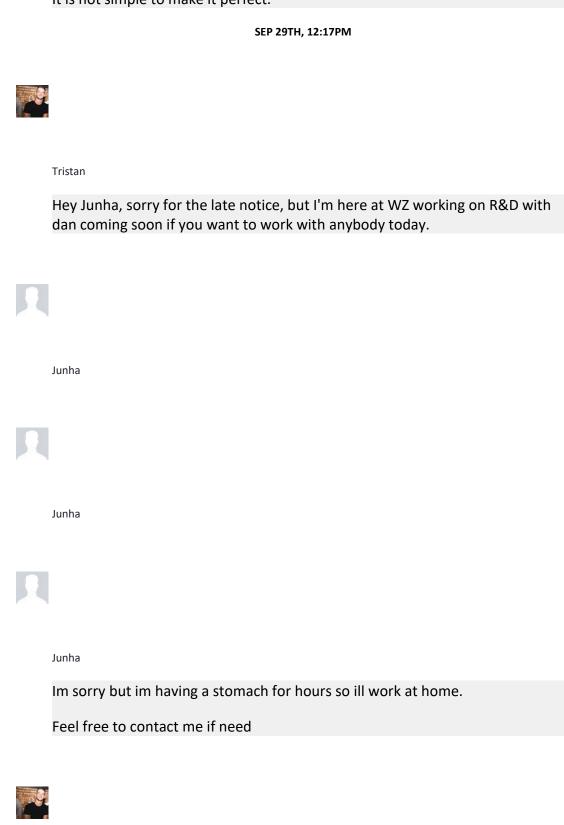

Dan

Sounds good to me

Tristan

Is that doable junha? I haven't looked into the session stuff much 🐶

Junha

I will say logging out when user close the browser is not worth the time doing. It is not simple to make it perfect.

Tristan

Hey Junha, sorry for the late notice, but I'm here at WZ working on R&D with dan coming soon if you want to work with anybody today.

Junha

That wont be a problem. How do you want me to give it?
